Meeting date: 06/10/2026
Time: 12:00 - 12:30
Sprint: 1
Meeting Location: University campus

Attendance

Present:
Krishna - Secretary
Diyvesh - Scrum Master
Irwin - Tester 2
Akilesh - Tester 1
Shankar - Developer 1
Kushal - Developer 2

Absent:
None

Meeting agenda

1. Review coursework requirements
2. Discuss initial design
3. Discuss features
4. Assign tasks

Discussion

The team discussed the requirements for the Cinema Film Booking and Membership System. The system is intended to allow users to search for films, make bookings and manage membership information.

The team discussed the importance of choosing suitable data structures to store and search for information efficiently. The design before implementing the system.

Decision made

- The application will be developed using C# as a console application.
- GitHub will be used to store and manage the project files.
- Azure Boards will be used to track tasks and responsibilities.
- The team will follow the agreed sprint schedule.
